

## Repair certifier applications

- [Application documentation](#)

Repair certifiers carry out specialist inspection and certification of repairs to light vehicles that have suffered significant damage or deterioration to the structure, chassis, body-to-chassis attachment, suspension or occupant protection system of a light vehicle.

The primary duty of a repair certifier is to ensure that a repaired vehicle is within safe tolerance of the manufacturer's specifications.

To be appointed as a repair certifier you must apply to Waka Kotahi.
