## Declaration

The brake repairs carried out on this vehicle, and the replacement parts used (as detailed above), comply with the vehicle manufacturer's original specifications or with approved standards specified in the NZTA's regulations, rules and policy statements. I can show from parts suppliers, invoices or manufacturer's catalogues that the parts used are correct for the vehicle model/sub-model and year.

|                      |                      |
|----------------------|----------------------|
| Repairer             | Phone                |
| <input type="text"/> | <input type="text"/> |
| Repairer's signature | Date                 |
| <input type="text"/> | <input type="text"/> |

Note It is the repairer's responsibility to ensure that vehicle manufacturers' standards are met with respect to fitting parts and workmanship.
