

CoF B checksheet transition to A4 printers

We're phasing out the use of dot matrix checksheets. Dot matrix forms for CoF B checksheets won't be available after 30 June 2025. You can order CoF B checksheets for A4 printers from Blue Star.

Why we're making this change

Parts and maintenance support for dot matrix continuous printers are getting increasingly difficult to source.

What else you need to know

Printer setup

If you're already set up via Unisys to print from both A4 and dot matrix continuous printers, you only need to select the A4 printer option.

If you don't have an A4 printer yet, you'll need to get one by June 2025 and contact Unisys to get it set up.

Customer copy

New CoF B printed checksheets are not carbonated. You will need to provide your customers with an extra copy.

Stationery supply

Blue Star will provide the new CoF B checksheet in packs of 500 sheets at a reduced cost.

Unisys support

Any issues with printing will be supported by Unisys: call 0800 243 687.
