

## Inspection news issue 7 out now

You can now download

This issue includes:

- an introduction from Nicole Botherway, Senior Manager Safer Vehicles
- results from our recent survey
- an update to QMS requirements for inspecting organisations to display vehicle inspector certificates
- dealing with rechecks under different alert levels
- what to do if your roller brake machine breaks down.

This issue also sees the introduction of two new features:

- **WoF quiz** - is your knowledge up to scratch?
- **What the...!** - pictures of the dodgy and unsafe
- **Subject headings** - so you know if it is a WoF, CoF or entry certification related story.
