

Small price increases to labels and forms

From 1 July 2021 there will be some small price increases to the forms and labels you order through the [Bluestar publications portal](#)

This is the first price increase in eight years and is due to increases in production and freight costs. Bluestar have kept the increases as small as possible to minimise any financial impacts. For example, the cost of a WoF label book is increasing by only 21 cents plus GST which is less than one cent per label. You can see the price increases in the table below.

If you have any questions please email supplycontracts@nzta.govt.nz
