

Inspection news issue 21 out now

The latest issue of *Inspection news* is now available to download.

In this issue we have the usual WoF quiz and What The...!, as well as:

- approved use of NZTA branding
- aftermarket shock absorbers and LVV certification
- Tesla guidance on checking suspension
- emailing certificates of authority (CoA)
- a reminder about the recent industry alert regarding the risk of trailers disconnecting
- inspecting for cracks in some models of the Haulotte mobile lift work platform (cherry picker).
