VIRM: Light vehicle repair certification update – effective 5 April 2022

Page changed	Change description
<u>Technical bulletin 3: Declaration for SRS, ABS, ESC, and ADAS inspections</u>	The introduction of the <u>Declaration form for advanced driver assist systems (ADAS) inspections</u> will prevent a potential safety risk to land transport by ensuring ADAS systems are correctly calibrated after vehicle repair.
<u>Technical bulletin 8: Repairer categories, capabilities and requirements</u>	A change to category C will enable repairers with the right skills and expertise to make safe repairs to restoration and pre-1990 vehicles.
