VIRM: Entry certification amendment – 10 March 2025

VIRM amendment previews

Page affected	Changes
Inspection and certification	
<u>1-1 Registering a vehicle for the first time in New Zealand</u>	This change has been made to align with the changes to Technical bulletin 31 further below.
<u>1-11 Completing the inspection and certification process</u>	This change is to allow for the use of electronic signatures on check sheets.
<u>2-1 External projections</u>	Additional wording added advising that vehicles imported from the USA are not required to meet an approved external projections standard.
Technical bulletins	
<u>31 Brakes standards compliance</u>	The alignment to ECE13 for brakes instead of ADR35 means many more trucks of class NB and NC and trailers of TC and TD require electronic stability control to comply with that standard.
