5 2A Motorcycles – modified production

Requirements

	What NZTA expects of you	How NZTA will assess your performance
5.1	Correct technical decisions	
	You thoroughly inspect all modifications and correctly determine if the modifications comply with all legal requirements, taking into account technical information provided by NZTA and the LVVTA such as Low Volume Vehicle Code, Standards, Survey Sheets, Information Sheets, and LVVTA Member Association Technical Manuals.	NZTA will: <ul style="list-style-type: none">• talk to you• observe you at work• inspect the modifications on vehicles while you are certifying the vehicles, or after you have certified the vehicles• inspect inspection and certification documents you use and complete.
5.2	Technical competence	

	What NZTA expects of you	How NZTA will assess your performance
<p>You are competent in all technical aspects relating to <i>Category 2A Motorcycles</i> – <i>Modified production modifications</i>. This means you are competent in:</p> <ul style="list-style-type: none"> the assessment of <i>Category 2A Motorcycles</i> – <i>modified production modifications</i> including 	<p>NZTA will:</p> <ul style="list-style-type: none"> talk to you ask questions to check your competence relating to any of the modifications, and your assessment of the modifications observe you at work inspect inspection and certification documents you use and complete inspect your <i>Training Record</i>. <p>NZTA may administer a short test on <i>Category 2A Motorcycles</i> – <i>Modified production modifications</i>, and the assessment of <i>Category 2A Motorcycles</i> – <i>Modified production modifications</i>.</p>	

	What NZTA expects of you	How NZTA will assess your performance
5.3	Technical equipment	
	<p>You have, or have access to:</p> <ul style="list-style-type: none"> • a graduated lightboard or commercial quality beamsetter • a stop-watch, wrist-watch with a second hand or other device capable of measuring average deceleration • motorcycle inspection stand or lift and safety straps to lift wheels off the ground • an industrial quality hand-held inspection lamp • graduated tyre tread depth gauge • a steel ruler and tape measure • an inspection mirror • a protractor or other device used to measure angles • duct or similar adhesive tape • a string-line • a vernier calliper <p>The equipment is in good condition and working order.</p>	<p>NZTA will inspect your technical equipment.</p>
