8-1 Three-dimensional chassis measurements

Requirements

	What the Transport Agency expects of you	How the Transport Agency will assess your performance
8.1.1	<p>Correct technical decisions</p> <p>You thoroughly inspect three-dimensional chassis measurements and correctly determine whether the measurements comply with all Transport Agency requirements, taking into account technical information provided by the Transport Agency such as the VIRM: Light vehicle repair certification.</p>	<p>The Transport Agency will:</p> <ul style="list-style-type: none"> • talk to you • observe you at work • inspect vehicles which you have certified • inspect inspection and certification documents you use and complete • inspect information you enter into the Transport Agency computer system. <p>The Transport Agency may:</p> <ul style="list-style-type: none"> • take into account outcomes from complaints, random re-inspections and ‘mystery shopper’ exercises since your last review.
8.1.2	<p>Technical competence</p>	

You are competent in all technical aspects relating to three-dimensional chassis measurements.

The Transport Agency will:

- talk to you
- ask questions to check your competence relating to vehicle brakes and the assessment of service brakes and park brakes
- observe you at work
- inspect inspection and certification documents you use and complete
- inspect your [Training record](#).

The Transport Agency may administer a short test on the assessment of the three-dimensional chassis measurements.

This means you are competent in:

- the ability to assess the condition of the vehicle's chassis components
- The ability to assess the condition of the vehicle's chassis components
- The ability to assess the condition of the vehicle's chassis components

8.1.3

Technical equipment

You have:

- a trammel bar
- a tape measure
- assorted hand tools.

You have or have access to:

- a currently calibrated three-dimensional chassis measurement machine.

The equipment is in good condition and working order.

The Transport Agency will inspect your technical equipment.
